

# Side stand foot enlarger

## Installation manual

You will need a M8 spanner or socket as well as a M4 hex driver.

**Step 1:** Remove the 4 locknuts and washers from the pre-assembled product.

**Step 2:** Remove the top plate and slide it around the bike's side stand.

**Step 3:** Fit the top plate and the rest of the assembly together, add the 4 washers and hand-tighten the lock nuts.

## Installation manual

Step 4: Swivel the bike's side stand slightly up and use the spanner/socket and hex driver to tighten the 4 locknuts in a criss-cross fashion.

Step 5: Once the nuts are tightly fastened the installation is complete.
